

ICEBERG PATROL CLEARS SEA LANES BY DYNAMITE; U. S. S. SENECA AT WORK

Typical berg in mid-Atlantic, of shape that sank the Titanic. Photograph taken this summer.

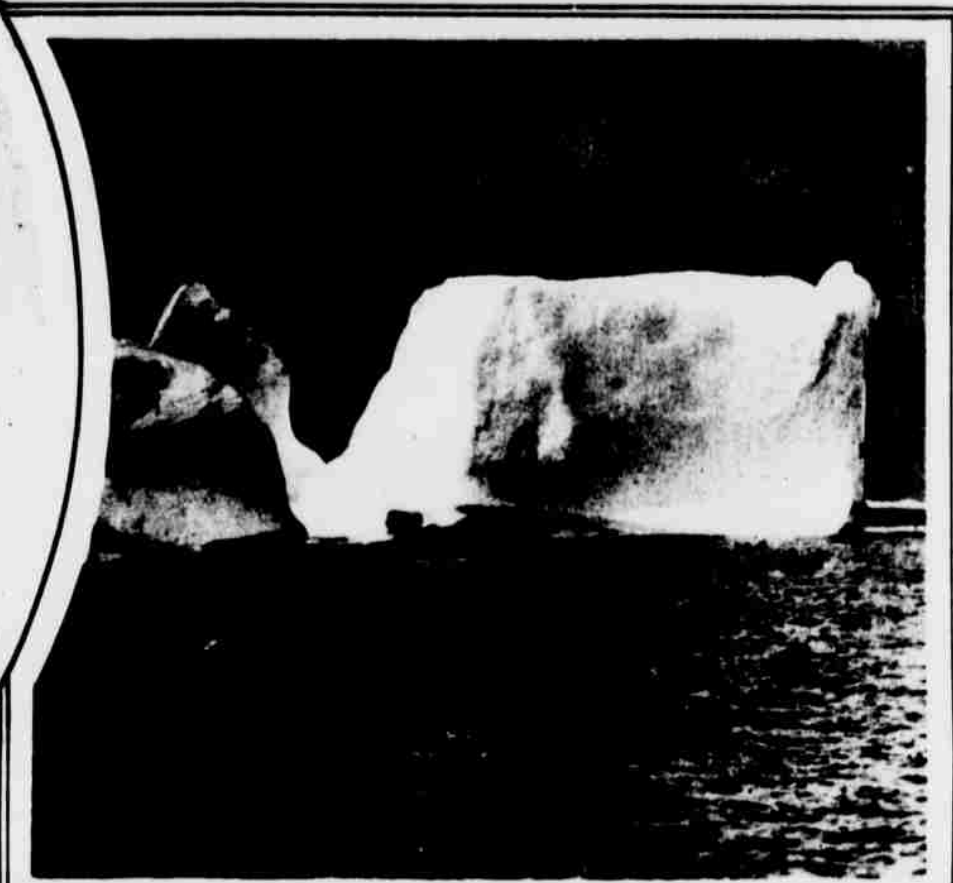

Berg as seen from deck of the Seneca before being blown up.

Same berg after explosion. The pieces melt quickly and the reduction in bulk is strikingly shown.

Wrecked by icebergs: Norwegian bark's crew saved by Seneca

Seneca's boat crew wigwagging from berg that explosive has been placed.

CHARMING PERSONALITIES REVEALED IN THREE POPULAR FILM DRAMAS NOW BEING SHOWN
